

I am not in favor of expanding the LPFM service in my area. I understand it could force stations such as K-Love off the air. I listen to this station because it is wholesome, Christian music. To be able to listen to a wholesome radio station is a benefit to not just me, but my children, grandchildren and the community as a whole. There are plenty of stations that I don't want to listen to where the music and comments are anything, but wholesome and beneficial to anyone.
